

Basic Part

- On the basis that all functions are completed,, if the required functions and UI or page design are completed with high quality, you can get full marks or even 1% - 5% bonus points. Otherwise, there will be a 1%-10% deduction.
- For web project: If the frontend and backend cannot be merged for most requirements, you can only get 20%-60% points.

Advanced Part:

Each advanced requirement in each project have less point than basic part, and you can get points only if you finish it with a high quality.

The requirements that are not written in the document, but you find it and implement it, you will also get bonus points.

For website project, in addition to those mentioned in the project requirements, we will use unified standards to look at the following items:

- Login and permission settings
- More beautiful webpage
- Deploy the website on the server
- Advantages of structured design (such as where to use which design patterns)

For game project, in addition to those mentioned in the project requirements, we will use unified standards to look at the following items:

- More beautiful UI and audio source design
- Network connection
- Export exe games, or export other platform games, etc.
- Advantages of structured design (such as where to use which design patterns)

Presentation and document:

Your grade will fluctuate based on the following items:

- Arrived 15 minutes in advance for all presentation time and no one was absent (schedules will be provided if you have other course during the presentation period)
- In each presentation time, you need a clearly explanations and you should complete within the required time.
- High quality reports.

- Submit report, ppt and source code of your project in time.

基础部分：

- 在所有功能都完成的基础上，页面与功能性完成比较有质量，可以得到满分甚至 1%-5% 的上浮。否则，会有 1%-10% 的向下幅幅度。
- 网站类：大部分功能前端或后端无法合并，按照 20%-60% 酌情给分。

高级部分：

高级要求每一点相比基础要求分值较少，且要做得比较好才能拿到分数。

未写在高级要求文档上的内容，但是大家想到并实现了，也会有加分。

网站类除项目要求提到的之外，会整体看下面几项：

- 登陆及权限设置
- 页面美化
- 服务器上部署网站
- 结构化设计优势(比如哪里用到哪些设计模式)

游戏类除项目要求提到的之外，会整体看下面几项：

- 页面美化与音效
- 网络联机
- 导出 exe 游戏，及跨平台游戏等
- 结构化设计优势(比如哪里用到哪些设计模式)

答辩与文档部分

项目分数会根据下面几项浮动

- 3 次答辩均提前 15 分钟到场等待，且无人缺席（答辩时段有课可提供课程表，或在系统提供请假申请）
- 答辩时讲解有条理性，且能在要求的时间内完成。
- 优质的项目报告
- 按时提交项目文档、项目 ppt、源代码等文件。
